At the recent "Disease X" gathering of the World Health Organization (WHO), director-general Tedros Adhanom Ghebreyesus [declared that](#) the entire world needs to immediately adopt the

so-called "Pandemic Agreement," which will allow the WHO to unleash a global police force to regulate what gets posted and shared on the internet.

In order to be "better prepared" for the next "pandemic," as well as "to understand Disease X," Ghebreyesus says world leaders must obey the WHO at all times, even when doing so goes against a nation's sovereign status, i.e., the United States and its pesky Constitution.

"This is about a common enemy," Ghebreyesus bellowed at the meeting. "Without a shared response, we will face the same problem as COVID."

This newfound global "war on disease" comes from the same page in the globalist playbook as the phony "war on terror" that came before it. All this talk about a "common enemy" reads from the same script, nearly word for word, as the one implemented during the George W. Bush years in response to the 9/11 false flag terror attack.

## **Ghebreyesus goes silent after being asked about global lockdowns, vaccine mandates**

The deadline for nations to adopt the WHO's Pandemic Agreement is this upcoming May. Member states are currently in negotiations about how to implement it in accordance with the demands of Ghebreyesus, who repeatedly threatened during the gathering that another COVID will come unless all nations obey the WHO.

"This is a common global interest, and very narrow national interests should not come in the way," he said. "Of course, national interests are natural, but they could be difficult and affect the negotiations."

Ghebreyesus also stated ominously that COVID was "the first Disease X," and that another just like it *or worse* "could happen again" unless all the nations of the world obey the WHO and do whatever the United Nations (UN) body tells them to do.

*Rebel News* reporter Avi Yemeni confronted Ghebreyesus about his statements at the Disease X gathering, requesting his opinion on global lockdowns and vaccine mandates. Ghebreyesus had nothing to say to Yemeni about any of it.

? WE GOT HIM! Tedros confronted at the World Economic Forum for what he did in Covid and his plans with Disease X.

This is why we're in Davos, to pose the simple questions most people want answered and the media refuse to ask.

"COVID was a SCAM by globalists like Bill 'Evil' Gates," one commenter wrote in response to news coverage about Disease X and the statements made by Ghebreyesus and others at the WHO gathering.

"I can see the people don't have a voice here," wrote another about the tyrannical position of the WHO.

"Sounds to me like the WHO and the WEF (World Economic Forum) Zionist Nazis need to swing from the end of a rope," suggested another.
